

Power Series

Learn Faster. Build Smarter. Apply with Confidence.

Let your business need shape the solution.

Get hands-on with Power Platform and learn to design the right solution for any business process. Run a track end to end, or choose the modules that fit your scenario, audience and skill level.

Explore labs

One toolbox. So you have the right tool, every time.

Power Platform brings apps, automation, agents and data together in one governed toolbox. Each tool has a distinct role, and together they adapt to your context and constraints.
